

General Remarks

November 2017

Strategic Alliance:

In cooperation with:

Origins and Purpose

This training slides are part of a trainer and factory qualification program jointly initiated by Tchibo GmbH, Rewe Group and GIZ within the develoPPP.de program of the German Federal Ministry for Economic Cooperation and Development and in cooperation with the Partnership for Sustainable Textiles. The partners aim to empower factories to control input of chemicals and to advance towards zero discharge of hazardous chemicals in production processes.

The training slides have been developed on basis of the earlier GIZ Chemical Management Toolkit. The toolkit refers to publications of UNEP, UNIDO, ILO, HSE (UK), BAUA (Germany) and ICCA. Furthermore it integrates more than a decade of practical implementation experience of the “Resource Efficient Management of Chemicals” (REMC) cycle and was updated and in orientation to structure and content of the Zero Discharge of Hazardous Chemicals (ZDHC) Chemical Management System Guidelines published 2015.

While the original toolkit target group focused on chemical management especially for Small and Medium Scale Enterprises, this adapted version includes comprehensive chapters on substitution and emission management to support also larger companies with the implementation of the Greenpeace Detox requirements.

Credits

These training slides have been adapted for Rewe Group, Tchibo and GIZ based on the GIZ REMC toolkit, by:

- Made By - Tamara Wulf and Jaqueline Vater
- Sustainable Textile Solutions (STS) Dr. Siva Pariti and team

The materials have been complemented based on feedback by several trainers working for Bureau Veritas, Capella Consultant CITA, ERI, IOTA, Joyi and TÜV Rheinland.

Many thanks to ZDHC – especially to Mrs. Dr. Christina Raab, for comprehensive review and feedback.

Many thanks also to all companies and stakeholder who have contributed to the development on the REMC Toolkit, especially to

- Dr. Jürgen Hannak, Md. Omar Faruq and Md. Shamsul Arafin
- Programme for Promotion of Social and Environmental Standards (PSES), GIZ Bangladesh
- INTEGRATION Environment & Energy Germany
- BiPRO GmbH, Germany - Dr. Reinhard Joas, Craig Hawthorne, Sanja Ursanic, Korbinian Eierstock
- Reed Consulting Bangladesh Ltd. - Dr. Mohammad Abbas Uddin
- Ecletic, Bangladesh - Md. Moniruzzaman
- Helmut Krist
